

# Salesforce® Workforce Management Solution

Work-from-home Compliance.  
Employee Monitoring and Enablement.

## Manage Your Remote Team's Performance Effectively

The most reliable Remote Workforce Management Solutions can capture and analyze data that might otherwise be overlooked. It provides a comprehensive representation of the workflow of distant working employees at varying levels incorporated in a single-window tracking from basic to advanced features.

### iWorkRemote

Our Remote Workforce Solution, **iWorkRemote**, is a comprehensive solution that provides a 360-degree view in a single-window of the employees working remotely. From standard features such as Time Tracking, Job Tracking, Attendance Compliance, or Identity Verification to advanced automated functionalities for Office Asset Management, Expense Reimbursement, Advanced Reporting, Analytics Features, and more – the tool seamlessly manages remote workforce.

### Solution Brief

In these unprecedented times, organizations are focused on fostering a successful solution that maximizes remote evaluation of human resources and can decrease the costs of internal communications as part of larger business strategies. Our solution is designed to identify and curb inefficiencies in managing a remote work arrangement and expedites incremental impact making your organization future-ready.

Built on World's #1 CRM - Salesforce.com, this solution enables access to the entire workforce with a reduced cost of ownership.

### Users of Solutions

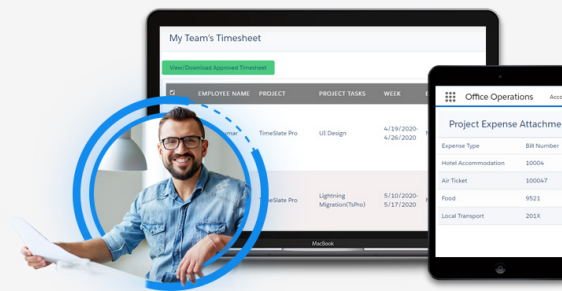

All organizations that need to manage remote working resources and automate monitoring of daily attendance, geo-location, project allocations, tasks, timesheets, expenses, and other support needs can leverage our reliable Remote Workforce Management Solution. Our solution can help mitigate the issues in managing the allocation of niche skilled resources, visibility into project deliverables, attendance compliance, collaboration, and employee productivity evaluation.
